Bengaluru, India

Professional Summary

Data Analyst with 3+ years of experience in SQL, Python, Power BI, and Advanced Excel, specializing in **data cleaning, exploratory data analysis (EDA), KPI analysis, and business reporting**. Proven ability to analyse large datasets, identify trends, and translate business requirements into **actionable insights**. Strong expertise in **stakeholder collaboration, data validation, and performance analysis** to support data-driven decision-making.

Skills

- **Data Analysis & Visualization:** Data Cleaning, Exploratory Data Analysis (EDA), KPI Analysis, Trend & Variance Analysis, Business Reporting, Dashboarding.
- **SQL & Programming:** SQL (Advanced Joins, CTEs, Subqueries, Aggregations), Python (Pandas, NumPy).
- **Excel & Reporting:** Advanced Excel, Pivot Tables, Power Query, Ad-hoc Analysis.
- **Data Modeling & ETL**: Star Schema Data Modeling, ETL Pipelines, Data Transformation, Performance Optimization.
- **Tools & Platforms:** Power BI Desktop, Power BI Service, PostgreSQL, APIs.
- **BI Governance & Quality:** Data Validation, Version Control (Git), BI Best Practices.
- **Business Skills:** Stakeholder Collaboration, Root Cause Analysis, Forecasting, Performance Monitoring.

Work Experience

DATA ANALYST -- CAPGEMINI TECHNOLOGY & SERVICES **OCT 2022 – PRESENT**

RISK MANAGEMENT & BUSINESS PERFORMANCE ANALYSIS | SQL, Power BI, Python

- Analyzed **project performance, revenue, utilization, and risk metrics** across **5+ regions**, delivering **weekly and monthly analytical insights** that supported **leadership decision-making**.
- Developed **10+ analytical KPIs and metrics using SQL and Power BI (DAX)**, identifying trends, variances, and performance gaps that supported business optimization initiatives.
- Cleaned, transformed, and validated **20K+ records per week** using **Power Query and SQL**, improving data accuracy and consistency by **~30%**.
- Performed **root-cause analysis on 15+ performance deviations and data anomalies per quarter**, supporting corrective actions and risk mitigation.
- **Partnered with** 10+ business stakeholders **to gather analytical requirements, present insights, and translate findings into** actionable recommendations**.**
- **Automated** recurring analysis and reporting workflows**, reducing manual effort by** ~30% **and improving turnaround time for business reports**.

AEROSPACE OPERATIONS PERFORMANCE & KPI ANALYSIS | Power BI, SQL, Excel

- Conducted operational performance analysis across **10+ aerospace programs**, monitoring utilization, delivery, and efficiency metrics on a **weekly and monthly basis**.
- Used **Python (Pandas, NumPy)** to perform exploratory data analysis and data validation on operational datasets, supporting trend analysis, anomaly detection, and KPI reporting.
- Built analytical datasets and **12+ KPI frameworks to support trend analysis, variance analysis, and management reporting**.
- Consolidated and analyzed data from **5+ operational source systems**, reducing manual Excel-based analysis by **~40%**.
- Delivered **20+ recurring and ad-hoc analytical insights per quarter**, supporting root-cause analysis and continuous operational performance improvement initiatives.

Education

B.Tech in Electronics & Communication Engineering 2018 – 2022

PVKK Institute of Technology -- Anantapur, Andhra Pradesh **| CGPA: 8.3/10**

Certifications

Microsoft Certified: Power BI Data Analyst (PL-300T00)

SQL for Data Analysis

Python for Data Analysis
